➤ **Amendment No. 33 -- Coverage of Drugs to Treat Erectile Dysfunction**

The Mandatory Generic Prescription Drug Plan (also known as the Prescription Solutions Walk-In Pharmacy Plan) currently provides a limited benefit of four (4) pills per prescription per month for Viagra, Cialis and Levitra. Effective for prescriptions filled on or after July 1, 2008, the Plan will cover prescriptions of up to a maximum of eight (8) pills per prescription per month for drugs to treat erectile dysfunction.

The copayment for this class of drugs remains at 50% of the retail cost, and the copayment is based on the cost of the prescription for the number of pills authorized by your physician to be dispensed.
