

In support of your member assistance program (MAP), OPTUM is excited to introduce the new myLiveandworkwell app. Now available on Apple and Google Play App stores, this new mobile app will provide your employees immediate access to MAP specialists, resources and so much more.

The myLiveandworkwell app puts the power of your MAP at your members' fingertips, including:

- Click to call using the appropriate phone number for your organization
- Request a call back
- Look up MAP benefits
- Conduct a provider search
- Request an authorization
- Access liveandworkwell.com content

Our MAP is designed to help all participants live their best lives. We drive program participation through traditional and new engagement methods, as evidenced by this new app. The app meets people where they are, when they want it.
